

**NEW SELCO SABRE 70 LAUNCH OFFER**

**Welcome to the first model in Selco's brand new range of Sabre advanced plasma cutters, which brings advanced displays to enhance the process of plasma cutting! One of the most common comments we hear with regard to using plasma cutters is that users are not always sure how to set the machine, and which torch consumables to use for any given job.**

**SELCO WELDING EQUIPMENT, 15 OAKEN COPSE, CHURCH CROOKHAM, FLEET, HANTS, GU52 8DL. Tel 01252 623421, mobile 07721 429098. E-mail [markdaviesuk@virginmedia.com](mailto:markdaviesuk@virginmedia.com) web-sites [www.selcoweldingequipment.co.uk](http://www.selcoweldingequipment.co.uk) , [www.forsterweldingtables.co.uk](http://www.forsterweldingtables.co.uk) & [www.intecoweld.co.uk](http://www.intecoweld.co.uk) .**

# **WELDING EQUIPMENT**

**This issue is solved through Selco's brilliant i-panel control screen, by which the operator can set the thickness to cut, and the display shows the cutting current, size of nozzle to use, and even the air pressure required! The display also shows both a maximum and a recommended speed of travel to give the best cutting quality, so reducing additional finishing!**

**Running off a 16A 3-phase supply the Sabre 70 has a high duty cycle measured at 40 degrees C of:-**

**70A @ 50%**

**65A @ 60%**

**55A @ 100%**

**Weighing only 18.6Kgs the Sabre 70 is a very compact and portable plasma cutter offering the following cutting capacities:-**

**Detachment (severance) 32mm**

**Maximum clean cut 25mm**

**Recommended cut 20mm**

**Punching (piercing) 16mm**

**This special launch offer for the machine, 6mtr torch and 4mtr earth lead, the trolley shown in the middle picture, together with all the torch spares in the lower photograph. As with all Selco welders, this machine benefits from Selco's up to 5 year warranty.**

**OFFER PRICE £2195.00 + vat**

**The list price for this package is £2795.00 + vat**

**Please note this machine an air regulator fitted to the rear which accepts your choice of air line fitting with a ¼ BSP male thread.**
